--------------------------	--	--	--	--	--	--	--	--	--	---	--	--	--	--	--------------------

12345 = Card ID Number
YYYYYYYY-YY = Sales Order Number

125 kHz Card Programming Information

Format Number	Field Name(s) e.g. Facility Code	Value	QTY	Encoded Start Number	Encoded Stop Number
				Printed Start Number	Printed Stop Number

¹For new artwork files, contact Customer Service for custom artwork number, lead-times, and cost.
²Cards ordered with plain white front and back packaging, with no HID artwork or with custom artwork, will still have a small "HID logo" and reference number printed in the lower left-hand corner and a slot punch target printed on the back of the card. The majority of part numbers are marked with sales order number, a custom part number is required to omit all marking from the card. Contact your local support representative for details.
³The Printed card number is placed in the bottom right-hand corner on the back of the card.
⁴Cards are provided with an optional slot punch at no additional charge. Some video imaging printers cannot accommodate pre-slot punched cards. Consult with the printer manufacturer prior to ordering.
⁵Please note that cards shipped within the Americas are always laser-engraved. Inkjetted option is not available for these cards.
 *The composite construction is recommended for all cards that will have an over-laminate applied.
